

# Sunday Morning

**VP 101-  
Room 5**                      **Various Teachers**

*This class is a place to start at Vaughn Park. It is an ongoing 6 week class designed to familiarize guests and members with Vaughn Park. We will cover the core doctrines and values of Vaughn Park. We will spend a week looking at the importance of community. There will also be some practical lessons taught from the book of James. After 6 weeks we intend to get those attending plugged into one of our normal Bible Classes.*

**Auditorium Class**      **Wendell Mitchell  
Joshua**

*The auditorium is one of our biggest classes. This is a class filled with all age groups. The class has been following the Through the Bible curriculum for many years. The current book for this quarter is Joshua. You may notice that there are several offerings of this. Wendell is one of our regular teachers in the Auditorium class and does a great job.*

**College Class**                      **Floyd Parker**  
*Family Life Center College Room*

*Floyd Parker is a recent addition to our staff at Vaughn Park. He is serving as our college minister. He works at Faulkner as a Bible professor. If you are college age, this will be an awesome class to be a part of.*

**Young Professionals**                      **Eric Gwin**  
**Room 3**    **Nehemiah**

*Who is a young professional? If you are out of college and you are single or a single parent, this may be the class for you. Eric will be leading the class through the book of Nehemiah, specifically looking at the topic leadership.*

**Young Married**                      **Mark Wishum**  
**Room 7**    **Radical Living Vs.  
Paul's Virtues**

*Are you in your first several years of marriage (or even having your first child)? This may be the class for you. Each week will be based on a different virtue, (faith, hope charity, gratitude, justice, prudence, temperance) and we'll look at the writings of Paul to help find a medium of comparison between today's culture and the society Paul reached, and the lack of recognition we have that there's little difference between the two.*

**Parents of**                      **Derek Johnson**  
**Young Children**                      **Brian Hardin**  
**Room 4**                      **Transforming Your Children  
Into Spiritual Champions**

*Do you have small children? Or are you a grandparent of small children? This could be a great class for you. This quarter the class will look at ways to raise children to follow Christ and be transformed into His image. This class also welcomes experienced families that have the desire to mentor younger families.*

**Parents of Teens**                      **David Johnson**  
**Room 6**    **Helping without  
Hurting**

*Teens today are more and more concerned about social justice and helping the poor. Join David Johnson, a professor at Faulkner University, as he leads the class through the book, Helping without Hurting: How to Alleviate Poverty without Hurting the Poor and Yourself. Many of you know David and Marlea work in Africa and work with helping the poor there. This will be an engaging study for those that want to attend.*
